

The benefits of working at CalSTRS

(Bargaining Unit 1, Bargaining Unit 4)

CalSTRS offers a variety of benefits to suit the health and wellness needs of our employees and their dependents. This resource provides an overview of the benefits available to eligible employees.

Eligibility

Eligibility for most benefits is based on tenure and time base of your qualifying appointment. You must work at least half-time and have a permanent appointment or a “limited term” appointment with a duration of more than six months. Employees who do not meet eligibility requirements may qualify for health care under the Affordable Care Act (ACA).

If you are a State Permanent-Intermittent (PI) employee, you may enroll if you have credit for a minimum of 480 paid hours at the end of a “control period.” A control period is six months from January 1 to June 30 or July 1 to December 31. You cannot become eligible in the middle of a control period even if the minimum hours are met. To continue to qualify for coverage, you must be credited with at least 480 paid hours at the end of each control period or at least 960 hours in two consecutive periods. Checkpoints to determine whether the hours have been met are June 30 and December 31.

Dependents of an eligible employee can include:

- Spouse
- Registered domestic partner
- Children (biological, adopted, domestic partner’s, or step) up to age 26
- Children, up to age 26, if the employee or annuitant has assumed a parent-child relationship and is considered the primary care parent
- Certified disabled dependent children aged 26 and older

State of California retirement benefits

Retirement (defined benefit)

The California Public Employees' Retirement System (CalPERS) administers retirement benefits for State of California employees. As a new employee, you are automatically enrolled into State Miscellaneous Tier 1 Membership. Please review the CalPERS publication [Welcome to CalPERS—A Benefits Guide for Public Agency Members](#). CalPERS' reciprocal agreement with other California public retirement systems can allow an individual to coordinate benefits between the two systems upon retirement. Please review the CalPERS guide [When You Change Retirement Systems](#) for the details and reciprocal systems.

Savings Plus (defined contribution plans)

Savings Plus is a voluntary retirement program which allows you to supplement your retirement benefits through tax-deferred and Roth payroll contributions. Please refer to [Savings Plus](#) for additional information regarding the 401(k) and 457(b) Traditional and Roth options.
