A Brief History of CalSTRS

The California State Teachers' Retirement System was established by law in 1913 to provide retirement benefits to California's public school teachers. Membership in the CalSTRS Defined Benefit Program includes all employees in California public schools from kindergarten through community college in positions performing creditable service under the Defined Benefit Program.

Teachers' Retirement Board

The Teachers' Retirement Board sets policies, makes rules for, and administers the California State Teachers' Retirement System. The board is also responsible for ensuring benefits are paid by the system in accordance with law.

Our 12-member Teachers' Retirement Board is made up of:

- Three member-elected positions representing current educators.
- A retired CalSTRS member appointed by the Governor and confirmed by the Senate.
- Three public representatives appointed by the Governor and confirmed by the Senate.
- A school board representative appointed by the Governor and confirmed by the Senate.
- Four board members who serve in an ex-officio capacity by virtue of their office: Director of Finance, State Controller, State Superintendent of Public Instruction and State Treasurer.

The board appoints a Chief Executive Officer to administer the system consistent with the board's policies and rules. The board also selects a Chief Investment Officer to direct the investment of the Teachers' Retirement Fund in accordance with board policy.

The board has seven standing committees: Audits and Risk Management, Benefits and Services, Board Governance, Investments, Compensation, Legislation and Appeals.

Teachers' Retirement Fund

The Teachers' Retirement Fund is a special trust fund established by law that holds the assets of the CalSTRS Defined Benefit, Defined Benefit Supplement and Cash Balance Benefit programs. The assets come from contributions by employees, employers and the state of California. The fund's investments create a stream of income to add to those assets.

When selecting investments, the Teachers' Retirement Board applies standards of safety, diversification, liquidity and structure for a complete and profitable investment portfolio. The portfolio includes stocks, bonds, real estate and short-term investments. Within these categories, CalSTRS further diversifies by holding a variety of issues within each segment.

The Teachers' Retirement Fund portfolio market value was \$157.9 billion as of December 31, 2006. CalSTRS ranks as the nation's second-largest public pension fund.
