

Revised 6/15/11
Phyllis C. Hall Ph.D.

Phyllis C. Hall, Ph.D. – Professor of Counselor, EOPS and CARES

I, Phyllis Hall, am running for the CalSTRS community college board seat. As a CalSTRS board trustee, I will listen to your concerns and voice your issues. I have been a CTA liaison to the CalSTRS board for the past four years.

The last 20 years have been spent educating myself on how true wealth is built and it has become my passion. I have spent thousands of dollars of my own money and time studying finance, economics, investing, investment vehicles, markets, market sectors and ways one can make the money we earn work for us.

It is time we understand what a financial education means as it relates to our retirement. Members must understand how investing small and increasing amounts of money over a long period of time sustains us. We must understand the magic of compound interest, dollar cost averaging, risk tolerance and time horizon.

During these difficult financial times and threats of pension reform, I will do what it takes to secure a retirement for all members who belong to CalSTRS so they will be able to reinvest in our society those funds they delayed having during their professional life. It is the right thing to do.
