Reworked Style Criteria –

- Reduced from 7 criteria to 2 criteria
- Published Employer Communications Standards job aid with Training and Development to simplify

Compensation Review Unit

- Team has historically reviewed benefits against risk thresholds *after* retirement
- Added manager and four analysts to existing team
- Brand-new effort and methodology for identifying member accounts to review prior to retirement
- Focusing on reasonable population size and certainty of upcoming retirement

Compensation Review Unit

- Primary goal: test approaches and develop methodology
- Both teams began pre-benefit account reviews as of January 2024
- Continue to review benefits after they establish

What's next

- Updating quality scoring criteria
- Exploring new workloads and functions to QC
- Refining and learning from initial pre-benefit account review methodology
- Listen to teams and find ways to continue our evolution
