Enterprise Technology Projects

Fiscal Year 2017–18
Fourth Quarter Report

Quarter Ending June 30, 2018
CalSTRS had four major enterprise projects and 12 additional projects of under $1 million in fiscal year 2017-18. One of the four major projects, Space Optimization, was completed during the first quarter within scope, schedule and budget. Of the under $1M projects, four have been completed, six are on track within schedule and budget, and the remaining two have schedule adjustments forthcoming.

The Project Management Office (PMO) monitors and reports on the information technology projects’ budget and enterprise projects monthly to EPIC and quarterly to the Teachers’ Retirement Board.

1. **Archive Flag** - Records that are in START and flagged as obsolete will not be converted into BenefitConnect. These records will be archived in the post-conversion (view only) version of START.
2. **Reported vs. Calculated** - Ensure the contribution amounts on individual employer reporting lines are calculated amounts rather than incorrectly reported amounts, with a tolerance of one-cent variance.
3. **Termination Out of Balance** - Correction of erroneous contribution and interest amounts on accounts that have not closed out correctly after benefit inception or there should not be contributions and interest.
4. **Member Lifecycle** - Changes to membership dates and/or employer reporting lines which will not convert successfully because they do not occur within begin and end dates of member lifecycles as defined in BenefitConnect.
The Pension Solution project will replace CalSTRS legacy pension administration system in order to increase the organization’s ability to respond to business and customer needs; enhance services to members, beneficiaries and employers; gain long-term operational efficiencies; and improve internal controls.
