Dear Mr. Mitchell:

We are writing to you as fiduciaries and managers of the largest pension funds in the United States and long-term shareowners of The Walt Disney Company.

The purpose of our letter is to request an immediate meeting between all members of The Walt Disney Company's Board of Directors and representative leaders of our pension systems to discuss the performance and governance concerns surrounding the Company. We believe that a meeting with the Disney Board of Directors will be more likely to result in a clear communication of our concerns.

We remain deeply concerned that our investments and the future of this company are in jeopardy. The company has lost more than 20 percent in stock value over the last five years -- nearly five times more than the losses incurred by the S&P 500 index for the comparable period. In our view, such a meeting would send a necessary signal to the market place that the Disney Board is willing to engage in a constructive dialogue regarding our mutual interests as fiduciaries and shareowner representatives.

It is important that we act without further delay, so we would appreciate the immediate review of board calendars to allow us to schedule this meeting. We will make our calendars available to accommodate that meeting.

Please contact Patricia Macht, AEO - CalPERS Office of Public Affairs, as our designee to work with you or your representative to schedule the meeting. Pat is expecting your call and can be reached at (916) 326-3850; rest assured that this matter will receive the highest priority.

We look forward to your prompt attention to this matter.

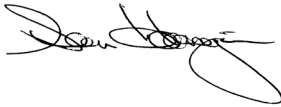

Sincerely,

Charlie Adkins
