

EMPLOYER OFFERING 403(b) PROGRAM

In March 2017, CalSTRS will complete a 403bCompare.com website redesign. CalSTRS 403bCompare program resulted from legislation requiring CalSTRS to create an online resource for free objective information about 403(b) products offered by vendors that are registered with 403bCompare.

For many, selecting a 403(b) plan and products can be overwhelming. The *New York Times* recently found that teachers who participate in a 403(b) plan as a means to supplement their defined benefit pension may be choosing investments that, over decades, deprive them of a significant amount of earnings they would otherwise enjoy and need to maintain their standard of living in retirement. That's why CalSTRS created 403bCompare.com. With the website's redesign, it's now even easier to compare fees, performance and services for all of California's 403(b) products. In just three easy steps, your employees can find the 403(b) products that best meet their retirement saving needs. The newly redesigned website will be launched on March 20, 2017.

Using 403bCompare.com, your employees can:

- Learn about the advantages of a 403(b) retirement account
- Find their employer's approved list of 403(b) vendors
- Compare 403(b) products side by side
- Get information about how to enroll and start easy contributions from their paycheck
- Access savings calculators, planning tips, videos and more

A better retirement for your employees is only a few clicks away. For 403bCompare materials, including flyers, brochures and presentations, please call 844-488-0270.

We have started to reach out to all districts and third-party administrators to ensure the information we provide on the website about employers is accurate and up to date.
