Enterprise Projects
Fiscal Year 2011/2012
Year End Report
The Enterprise Program Investment Council (EPIC) is responsible for governance of all enterprise projects which includes prioritizing, allocating resources and providing oversight of the $20 million annual EPIC budget.

The Project Management Office (PMO) monitors and reports on the EPIC Budget and enterprise projects monthly to EPIC and quarterly to the Teachers’ Retirement Board.

The Fiscal Year 2011/2012 EPIC budget reflects a 37% unexpended surplus. This is attributed to a number of factors including: (1) delays in some project milestone activities and deliverable payment schedules due to contract initiation and resource allocation constraints; and (2) changes in the resource benefit reporting assumptions for CalSTRS state staff. In addition, CalSTRS PMO staff constantly work towards reduction of costs throughout project life cycles. As projects enter into different phases and more information is available, project budgets are adjusted to reflect any cost savings and any unused funds are returned to the System at the end of the fiscal year. If a project determines they are unable to complete approved tasks within budget, there is a mechanism in place for which additional funds can be requested and approved through the EPIC process. These are core tenets of the CalSTRS PMO’s stewardship role in the management of the $20 million dollar annual EPIC budget which, together with the recently approved budget act item for the development of information technology projects, will enable CalSTRS to maximize the effective use of EPIC funding for BusinessRenew expenditures.

### Project Name: Actuarial Valuation

#### Purpose

The Actuarial Valuation project will provide CalSTRS with verification of the actuarial valuation processes, improve the current valuation process through the use of both technology and process improvement, and create detailed Actuarial Resources procedures.

#### Accomplishments

**Fiscal Year 2011/2012:**

- Enterprise Program Investment Council (EPIC) approved the team’s recommendation to complete the Detailed Internal Procedure Report as part of the program’s daily operations under the direction of the Plan Design & Communication (PD&C) Deputy CEO.

**Planned Deliverables for Fiscal Year 2012/2013:**

- Complete project close-out activities.

Note: The Actuarial Valuation project was in red, or warning, status until the final project deliverable, the Detailed Internal Procedure Report, was removed from the project scope and closed out. The red warning status was the result of the original contracted vendor, AON, going through a company merger with Hewitt Associates who no longer provided the agreed to contracted services. Staff researched other potential vendor options to complete the work. However, due to the unique knowledge of the original AON vendor with CalSTRS actuarial processes and data, a replacement vendor was determined to be unfeasible. Plan Design and Communications agreed to create the Detailed Internal Procedure Report deliverable using existing internal actuary resources and the Enterprise Program Investment Council agreed to pay for backfill resources for any required actuarial services in fiscal year 2012/2013. The Detailed Internal Procedure Report is scheduled to be complete in December 2012.

BusinessRenew Corporate Accounting & Resource Management

### Purpose
The BusinessRenew Corporate Accounting and Resource Management (CARM) project will improve financial reporting, corporate accounting, budgeting, procurement and contract management by implementing policies and technology systems that include automated internal controls to reduce financial and operational risks.

### Accomplishments

- **Fiscal Year 2011/2012:**
  - Completed Project Planning Phase.
  - Completed Blueprint Phase (system design phase) except the Data Conversion Plan.
    - Validated business requirements and completed 200+ page blueprint document which defines the solution.
    - Completed all planning documents (e.g., Training Strategy, Change Management Plan) to guide activities throughout the project.
  - Commenced Realization (build and test) phase:
    - Configured 95% of business processes in commercial off-the-shelf (COTS) package.
    - Completed the functional design of 50% of all custom development objects.
    - Completed development of 36% of custom objects required to support non-standard software.
    - Commenced test planning and completed Unit Testing of 28% of business processes.
    - Completed 10% of all Business Process Procedure (BPPs) documents.
    - Built Quality Assurance and Production environments.
  - Migrated Penalties and Interest functionality into the environment.
  - Signed implementation vendor contract amendment to include application maintenance and support.
  - Commenced and continued change management and end-user stakeholder readiness activities.
  - Received $1.3 million in Enterprise Program Investment Council (EPIC) funding to purchase necessary hardware, support additional contract resources and establish a project risk reserve.

- **Planned Deliverables in FY 2012/2013:**
  - Complete Release 1 including completion of the Realization Phase (building and testing the system), Final Prep Phase (training), go-live and migrating into production support.
  - Complete Blueprint (design) and Realization (build and test) of Release 2 functionality (cost accounting) scheduled for implementation in July 2013.
  - Continue Change Management and Training activities outlined in the respective plans.

#### Schedule Warning:
- Project is behind schedule due to historical implementation vendor resource issues. The team is now fully staffed and throughput has increased. Integration testing is scheduled to begin August 1, 2012.

Note: Project is funded from FY2011/2012 Operating Budget one time funds and contingency funds and is utilizing Enterprise Program Investment Council (EPIC) funding for supplementing the base budget.

## Project Name: BusinessRenew Data Preparation

The Renew Data Preparation project will acquire the services of a Data Analysis Services vendor to assist in analyzing CalSTRS pension data and developing a plan for preparing the data for conversion to a new pension solution.

### Fiscal Year 2011/2012:
- Gained Enterprise Program Investment Council approval to establish the Data Preparation discovery including establishing a data fix team to support the cleanup of high priority data issues potentially resulting in over or underpayments and the development of a plan for Enterprise Data Management with an initial focus on the Pension Solution needs.
- Released the Request for Proposal for a data analysis services vendor, which was subsequently cancelled.
- Received approval for a schedule change to accommodate the extended procurement schedule.
- Established a data fix team entitled the Complete Account Review and Evaluation (CARE) team and developed a quarterly progress report for presentation to the Enterprise Program Investment Council (EPIC).

### Planned Deliverables for Fiscal Year 2012/2013:
- Release a procurement document and award a contract for the development of a plan for Enterprise Data Management with an initial focus on the Pension Solution needs.
- Re-release the Data Analysis Services Request for Proposal and award the contract.
- Request approval to extend the project schedule to accommodate republishing the Data Analysis Services Request for Proposal.
- Perform the data analysis and profiling with the support of the Data Analysis vendor.
