Social Security, CalSTRS and You

Get the facts on two federal rules that may affect you

As a California public school educator, you do not contribute to Social Security, so you will not receive a Social Security benefit for your CalSTRS-covered employment when you retire.

If you or a spouse paid into Social Security through non-CalSTRS covered employment, two federal rules, the Windfall Elimination Provision and the Government Pension Offset, may be used in the calculation of your Social Security benefit. Social Security is a federal program, and neither CalSTRS nor the State of California has control over eligibility requirements or benefit calculations.

These rules affect only your Social Security benefit. Your CalSTRS retirement benefit will not change.

Windfall Elimination Provision

Affects your Social Security benefit that is based on your earnings from other employment.

- May reduce your Social Security benefit, but it will not eliminate it.
- Reduces the income replacement ratio covered under the first component of the Social Security benefit formula, known as a bend point, to as low as 40%. If you paid Social Security taxes on substantial earnings for:
  - Up to 20 years—This provision reduces the 90% factor of the Social Security computation formula to 40%.
  - 21 to 29 years—The 40% factor increases incrementally from 45% to 85%.
  - 30 or more years—There is no reduction to your Social Security benefit.

Social Security substantial earnings

Social Security substantial earnings are defined each year. Here is a sampling:

Government Pension Offset

Affects the Social Security benefit you receive as a spouse, widow or widower.

The Government Pension Offset rule applies to Social Security spouses, widows or widowers benefits and reduces those benefits if the beneficiary also receives money from a government pension.

If you expect to receive Social Security benefits tied to your spouse’s work history, the GPO may leave you with less income in retirement than you expected. This federal rule will reduce these benefits by two-thirds of the amount of your CalSTRS retirement benefit and may eliminate them altogether.

For example, if your spouse is receiving $2,000 a month from Social Security, you could be eligible for up to $1,000 per month before the application of the GPO.

If you are receiving a CalSTRS benefit of $1,500 or more, then you will not be eligible to receive a Social Security spousal benefit at this time because two-thirds of $1,500 is $1,000. You still may be eligible to receive a widow’s or widower’s benefit in the future.

Use the GPO Online Calculator at ssa.gov/gpo-wep to estimate your benefits if you are affected by the GPO.

Important Things to Consider

• If you’re receiving Social Security now, your Social Security benefit may be reduced or eliminated when you begin receiving your CalSTRS benefit.

• If you take a CalSTRS refund, your Social Security benefit still may be subject to offset.

• Let the Social Security Administration know when you plan to retire so that your Social Security benefit may be adjusted. Otherwise, you will have to repay any excess Social Security benefits you receive once you begin receiving your CalSTRS benefit.

• When you receive your CalSTRS annual benefit adjustment, contact the Social Security Administration. Your Social Security benefit may need to be adjusted.

• These two rules do not affect your Medicare benefits.

• Social Security benefits paid to CalSTRS option beneficiaries and survivor benefit beneficiaries are not affected by these rules.
